

Q2: Showing pseudo ~~code~~ classes ~~using~~ in hyperlinks.

```
<html>
<head>
  • <title> Pseudo classes </title>
</head>
<style>
  a:link {
    color: red;
  }
  a:visited {
    color: brown;
  }
  a:hover {
    background-color: violet;
    font-size: 20px;
    text-shadow: 3px 3px black;
  }
  a:active {
    color: grey;
  }
</style>
```

```
<body>
```

```
